

HAPPY THANKSGIVING

DINNER HEATING DIRECTIONS

Your Thanksgiving Turkey is room temperature. Heat gravy as hot as possible to warm meat. If you choose to heat turkey, use a bit of chicken stock to keep moist.

The side dishes will taste best if baked in a pre-heated oven at 350° for 30 minutes. Eggplant Parmigiana make take a bit longer.

Ovens rarely cook the same. Time and oven temperatures may vary.

If you have ordered a Ham Platter this is prepared to serve room temperature.

Your Thanksgiving Package has all side dishes boxed with cardboard dividers and food is stacked atop each other.

Thank you for choosing Bassett Caterers for your Thanksgiving Celebration!

Should you decide to cater for Christmas Eve, Christmas Day or New Year's Eve, our Holiday Packages will be on our website.
